EDUCATION

San Jose State University, May '21
BS; Business Analytics, Data Science
Minor; Economics | Dean's Scholar

AWARDS

2020 | 1st, Best Overall Innovation
Silicon Valley Innovation Challenge

2019 | 1st Place, Intel Paseo
Prototyping Challenge

LANGUAGES AND TECHNOLOGIES

Python, JavaScript, Node.js, TypeScript,
React.JS, Mongoose, NEXT.JS, Lambda
DynamoDB, SQL, NoSQL, Data Schema
Architecture, AWS, CI/CD Pipeline,
Snowflake, Selenium, Bots, Web
Scrapers, Flask, REST API, Git, R

METHODS

Early Product Development, Agile
Roadmapping, Scrum SW
Engineering, MVC Architecture,
Continuous Integration/Iteration

TOOLS

Jira, Azure DevOps, Rally, VScode,
Photoshop, Docker, GitHub, Postman,
Vercel, AWS CLI, Microsoft Suite, Excel,
RStudio, Tableau, PowerPoint, GCP

DISCIPLINES

Object-Oriented (OOP) Programming,
Functional (FP) Programming, SDLC,
Sprints, UI/UX Design, User Research,
Prototyping, Usability Testing, User-
Centered Design, Psychological Human
Factors, Inferential/Descriptive Statistics,
Data Analytics, Regression Modeling,
Data Processing, Scientific Research

AMER MRIZIQ

USER-CENTERED • TECHNICAL • PRODUCT MANAGER

RELEVANT EXPERIENCE

Technical Program Manager

Cisco | Aug 2021 — Current

- **Managed 13 quarterly SW subscription analyses** for C-suite read-outs
- Created **full-stack JavaScript Snowflake (SQL)** dashboard along **SDLC**
- Owned **stakeholder**, user discussions across **3 teams** to write product backlog
- **Reported sprints and quarterly milestones** to VP of Data & Analytics
- Conducted KPI efficacy studies and **enhancing** metric scale **accuracy by 2x**

Software Engineer (Contract)

Civilfreedoms.org | May 2021 - Aug 2021

- Reviewed development pull-requests and maintained production environment
- Developed SMS alert system (**AWS, NoSQL, Python**) **used by 500+ users**
- Produced payments and EMS integration to **scale to 100,000 unique visitors**
- Iterated JavaScript website by **building a user ticket-to-CI/CD workflow**

Product Manager Intern

Cisco | May 2020 - Aug 2020

- Ran usability pilot tests across **250 users** for in-development tools
- Designed UI/UX's for internal products for Cisco data scientists

Data Engineer / Product Manager Intern

Touchberry | Feb 2020 - May 2020

- Improved metadata pipeline for **Top 50 iOS app** boosting engagement by **15%**
- Generated **+1,000 social media follows** using bot marketing automation

PERSONAL PROJECTS

2bttns Software Development Kit

2021

SDK to generate user preference data for content ranking and aggregation

- Built **NEXT JS serverless API** ported to an NPM **React** component library
- Made full-stack 2bttns-based NEXT JS Jobs app with **CRUD API** and **NoSQL**

Hidden Markov Model / Malware Classification

2020

A **Python** Hidden Markov chain model to detect and label malware families.

- Wrote **preprocessing**, alpha/gamma/beta-pass **algorithms from scratch**
